

Overview

In Kaui, you can apply one or more tags to accounts and invoices, a tag being a single value. This section covers the tasks for viewing, managing, and attaching tags.

Kill Bill has two types of tags:

- **Control tags**—Also referred to as *system tags*, these tags modify the behavior of the system. In Kaui, you can view and attach these tags, but you cannot add, change, or delete the underlying [tag definition](#). Kill Bill includes several control tags; see the API documentation for [a list](#).
- **User tags**—These tags are not interpreted by the system; they are a way for admins or third-party systems to annotate specific existing resources. For instance, the support team could tag account resources associated with a specific customer to group them. In Kaui, you can create user tags on the [Tag Definition page](#).

NOTE

Note: Kill Bill does not include default user tags.

Additional Resources

- [Tag](#)
- [Tag Definition](#)

Add Tag Definition

As its name implies, a *tag definition* defines information about a specific tag. In Kaui, you must create a tag definition for each user tag you want to use in the current tenant.

To create a new tag definition:

1. At the top of the screen, click the tag icon and select **Tag Definitions**.

Kaui displays the Tag Definitions page.

Tag Definitions 					
ID	NAME	DESCRIPTION	SYSTEM TAG?	APPLICABLE TYPES	
a7c8c525-...-f9e0e043e2c2	yellow	yellow tag	false	ACCOUNT	Destroy
00000000-...-000000000001	__PARK__	Accounts with invalid invoicing state	true	ACCOUNT	
00000000-...-000000000001	AUTO_PAY_OFF	Suspends payments until removed.	true	ACCOUNT	

- Click the plus sign () next to **Tag Definition**.

Kaui displays the Add New Tag Definition screen:

Add New Tag Definition

Object type  ACCOUNT

Name blue

Description blue tag

[SAVE](#)

- Fill in the fields:

- Object type**—The type of object that the tag can be attached to (for example, accounts). To allow this tag to be applied to other object types, click the plus sign icon () next to **Object type**.
- Name**—The name of the tag.
- Description**—Text that describes how the tag is used. Kaui will show this text on the Tag Definitions page.

- Click the **Save** button. Kaui displays the new tag definition on the Tag Definitions page.

Tag definition successfully created					
Tag Definitions 					
ID	NAME	DESCRIPTION	SYSTEM TAG?	APPLICABLE TYPES	
a7c8c525-...-f9e0e043e2c2	yellow	yellow tag	false	ACCOUNT	Destroy
5135a1b0-...-4de5679e5833	blue	blue tag	false	ACCOUNT	Destroy
00000000-...-000000000001	__PARK__	Accounts with invalid invoicing state	true	ACCOUNT	
00000000-...-000000000001	AUTO_PAY_OFF	Suspends payments until removed.	true	ACCOUNT	

Delete a Tag Definition

If necessary, you can delete a tag definition from the current tenant.

If the associated tag has been applied to an object, then ... ???

To delete a tag definition:

1. At the top of the screen, click the tag icon and select **Tag Definitions**.

Kaui displays the Tag Definitions page.

Tag definition successfully created

Tag Definitions +

ID	NAME	DESCRIPTION	SYSTEM TAG?	APPLICABLE TYPES	
a7c8c525-...-f9e0e043e2c2	yellow	yellow tag	false	ACCOUNT	Destroy
5135a1b0-...-4de5679e5833	blue	blue tag	false	ACCOUNT	Destroy
00000000-...-000000000001	__PARK__	Accounts with invalid invoicing state	true	ACCOUNT	
00000000-...-000000000001	AUTO_PAY_OFF	Suspends payments until removed.	true	ACCOUNT	

2. On the tag definition row, click **Destroy**.

Do you get a message to confirm here?

Attach or Remove a Tag

In Kaui, you can attach both control tags and user tags to accounts and invoices.

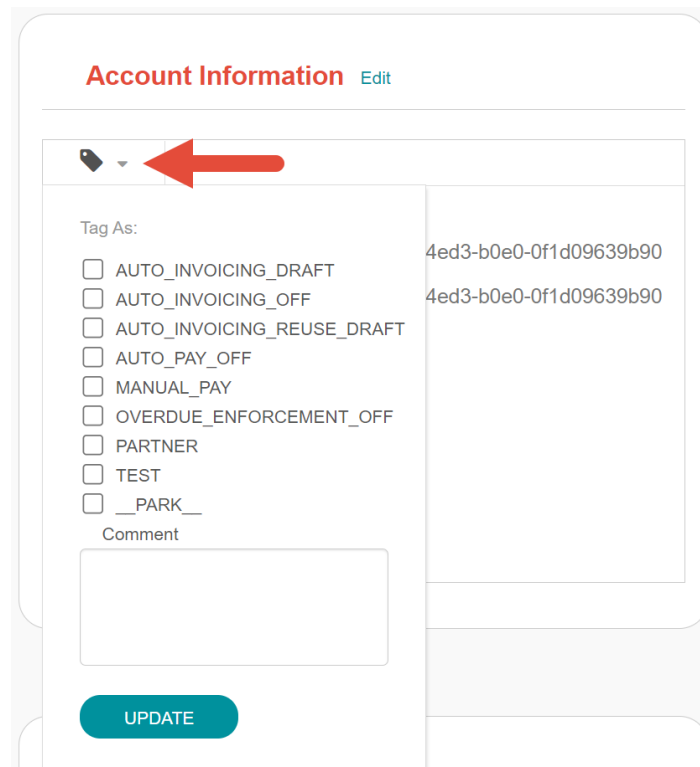

NOTE

Note: You can use the API to attach tags to more object types, such as payments and subscriptions. For more information, see the "Tags" section of the relevant object type (for example, Payments) in the [REST API Reference](#).

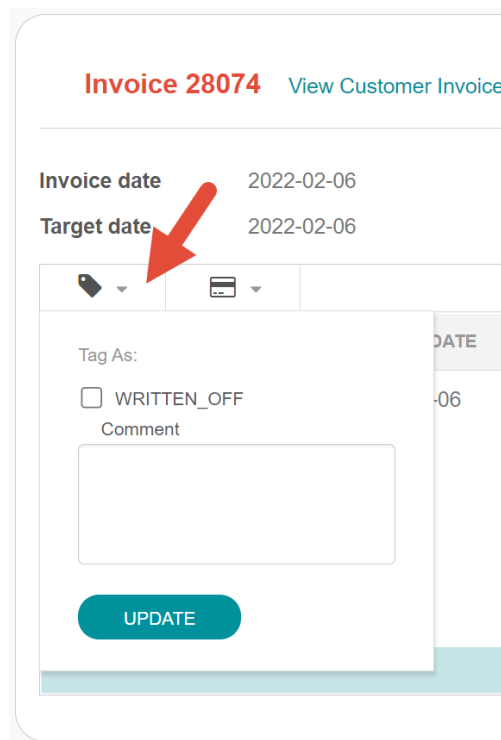

To attach (or remove) a tag from an account or invoice:

1. Open the account on the Accounts page.
2. If necessary, click **Invoices** on the sub-menu and click the link to open the relevant invoice.

3. Click the tag icon:

The screenshot shows the 'Account Information' form. At the top, there is a red 'Account Information' header with a blue 'Edit' link. Below the header, there is a tag icon (a small black tag with a white 'x') and a red arrow pointing to it. A dropdown menu is open, showing a list of tags with checkboxes: ☐ AUTO_INVOICING_DRAFT, ☐ AUTO_INVOICING_OFF, ☐ AUTO_INVOICING_REUSE_DRAFT, ☐ AUTO_PAY_OFF, ☐ MANUAL_PAY, ☐ OVERDUE_ENFORCEMENT_OFF, ☐ PARTNER, ☐ TEST, and ☐ __PARK__. Below the list is a 'Comment' field and an 'UPDATE' button.

The screenshot shows the 'Invoice 28074' form. At the top, there is a red 'Invoice 28074' header with a blue 'View Customer Invoice' link. Below the header, there are two rows: 'Invoice date' with value '2022-02-06' and 'Target date' with value '2022-02-06'. Below these rows, there is a tag icon (a small black tag with a white 'x') and a red arrow pointing to it. A dropdown menu is open, showing a list of tags with checkboxes: ☐ WRITTEN_OFF. Below the list is a 'Comment' field and an 'UPDATE' button.

4. To *attach* a tag, select its checkbox. You can select more than one checkbox to attach multiple tags.

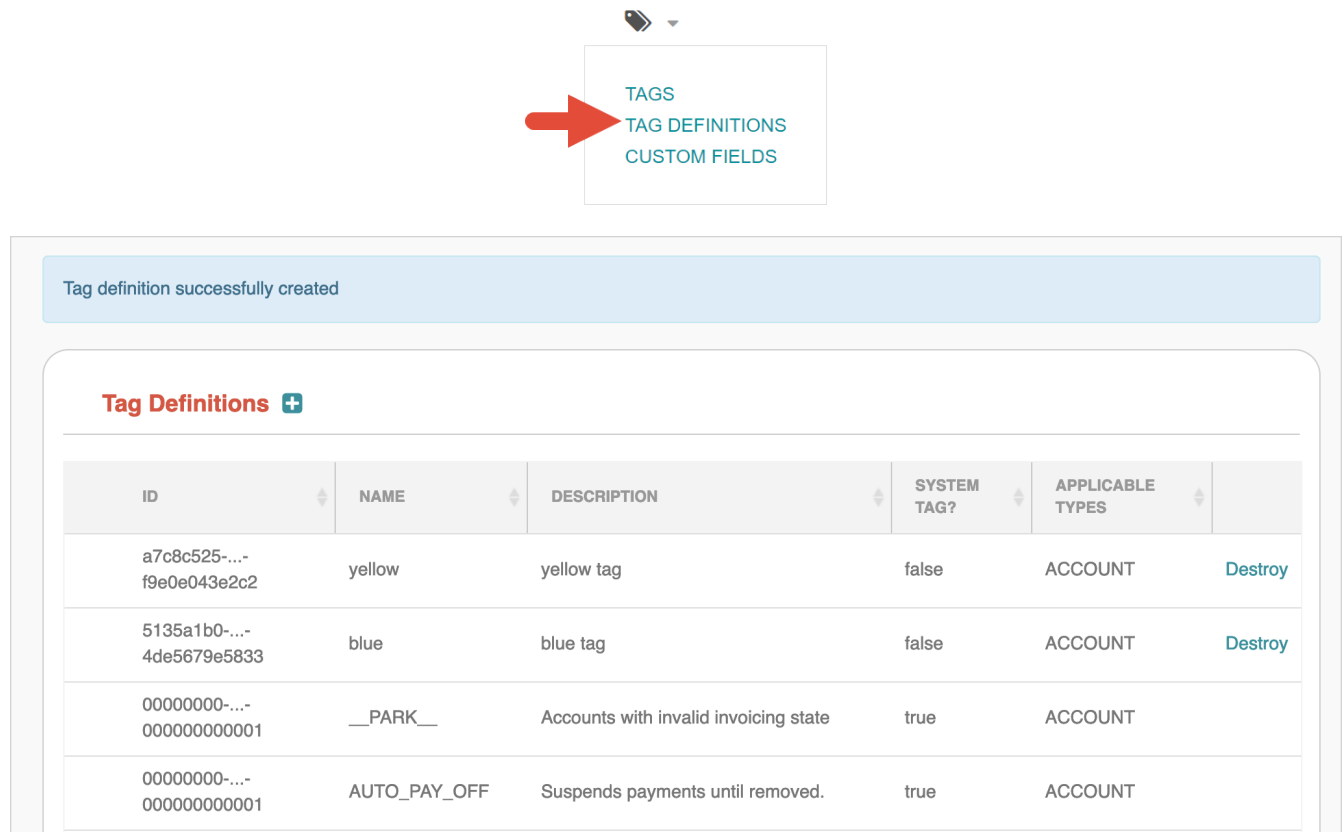

To *remove* a tag, click the box to clear the checkbox.

5. Add text in the **Comment** field (optional). Kill Bill stores the Comment text in the tags audit log (accessible via API).

6. Click the **Update** button.

View Available Tags

To see a list of all available tags (control and user), select the tag icon at the top of the screen, then select **Tag Definitions**:

The screenshot shows a user interface for managing tags. At the top, a dropdown menu is open, showing options: TAGS, TAG DEFINITIONS (highlighted with a red arrow), and CUSTOM FIELDS. Below the menu, a light blue banner states "Tag definition successfully created". The main section is titled "Tag Definitions" with a plus icon. It contains a table with the following data:

ID	NAME	DESCRIPTION	SYSTEM TAG?	APPLICABLE TYPES	
a7c8c525-...-f9e0e043e2c2	yellow	yellow tag	false	ACCOUNT	Destroy
5135a1b0-...-4de5679e5833	blue	blue tag	false	ACCOUNT	Destroy
00000000-...-000000000001	__PARK__	Accounts with invalid invoicing state	true	ACCOUNT	
00000000-...-000000000001	AUTO_PAY_OFF	Suspends payments until removed.	true	ACCOUNT	

View Object Types That Have Attached Tags

This section explains how to view the object types that have attached tags. You can view all the objects with tags for the current tenant; you can also view the tags for a specific account (or invoice).

To see a list of *all* the objects in the tenant that have a tag attached, select the tag icon at the top of the screen, then select **Tags**:

TIP

Tip: On the Tags page, you can open the object (account, invoice, etc.) by clicking the link in the Object ID column.

To see any tags assigned to an account (or invoice), open the account and click **Tags** on the sub-menu. The Tags page displays only the tags assigned to that account or its related invoice.
